A Trio of Unusual Frocks

These three frocks are somewhat unusual. On the left is a simply-made gown of powder blue chiffon with an over tunic of ceru lace. Lace is again used for the evening frock (center), with a black thread running through it. It is worn over flesh colored satin and has a unique skirt trim of monkey fur. An apricot taffeta dance frock (right) shows the popular use of ostrich trimming.

NEWS OF TANKS

By SERGE RAUSCH

Camp Douglas—A kitten ball game
was played by our Non-Comm team
against the Marshfield team. The
Marshfield team was victorious and
highly by its regular army captain,
A. A. Barnes. The score was 27 to
21. Sergt. Newbauer had to make
three mauling charges when Captain
Grimschaw batted three home runs.
At each run Newbauer was on first
base when "Capt." knocked the ball
out into left field. But "Jack" was
over taken at third base.

Our "Top Kick" First Sergt. Ryder,
walked two men in succession. Some-
thing wrong! Because that is the
first time it has ever happened by
him to make such an error.

Lts. Jackson and Markler made
several good plays, each scoring high.
Sergt. Shuller did his wise.
Capt. Simonson is a promising
man to play in the next game be-
cause of his skill ways. And he
surely can sense his opponents by
them.

Also we must give cheers to Lt.
Arnold and Corp. Shurtleff even
though they did miss a possible play
or two.

Kavanaugh Court will be held to-
night in the mess hall. The charge
is against Pvt. George Mannoff for
disobeying one of the articles of war.
A physician of the medical corp will
examine the charged man in order to
get the exact evidence. It is expected
that he will be heavily fined by
paying cigarettes.

Lt. L. Wright will act as prosecu-
tor. A practical lawyer
company C. Rice Lake, will act as
prosecuting judge for the state. Wit-
nesses for the prosecuting attorney
will be Corp. Drought and Pvt. B.
Oshott.

Sergt. Hulbert will be the attor-
ney for the defendant. His witness-
es are not as yet known. Pvt. Mann-
off's corporal, George Mannoff, was
to act as defendant but he is in
charge of quarters for the day. Mess
Sergt. Rausch is also acting for the
state.

Chas Putnam and Varley stimu-
lated over a rattle snake the other
night. They are not at all afraid
because they know of a prescription
that will delude the poison.

Blacksmith, Jerry Campbell, has
been wanting to know who the sec-
ond snake charmer is. Yes, his snake
is missing. Also first class private,
3rd class mechanic, Oswald McDon-
ald is one gopher trainer. A rattle
snake hunt has been planned for
Sunday by "Ozy" and Jimmy.

Pvt. Vignarone is due for the
"house talk" tonight. He is accus-
ed of burning the beds in the sergeant's
tent.

Sergeant Ryder and Corporal Javer
have to attend officers' school
every afternoon. Though they do
not miss their afternoon nap.

Corps. McCluskey, Schellenger,
Treon and Bugler Williams were play-
ing leap frog on Castle Rock the
other night. But when it was Mike-
turn to jump, he refused. He said
his shirt was not large enough for a
parachute.

With a view to guiding the cook

"Indeed I have, mum," returned
Mary. "I was after watermelon them

7,000,000 BIBLES GIVEN OUT
IN YEAR.
The American Bible society has an-
nounced that there is increasing
interest in the Bible and that in the
last year it has given out more than
7,000,000 copies. This is the second
time in its history that its issue has
exceeded that figure in one year. The
Bible now circulates in more than 12
languages. Nearly one-half of the
7,000,000 copies distributed usually are
demanded in the Orient.

Screen Folk

What is Charlie Chaplin doing?

Well, work on his new picture, "The
Gold Rush" is proving arduous and
may not be completed until the fall.
It will be an eight-reeler, and is to
surpass anything that even Chap-
lin ever did before. It is based on
the stirring days of the gold rush
to Alaska.

Ohio movie-goers are facing a
fight in the courts to make Sunday
closing of motion picture houses
compulsory. That cause are being
fought in Canton, and the Akron
courts are planning to close all
the theatres in that city shortly and
start on Cleveland and other large
cities.

Another dog star is in the skies.
Peter the Great, a new canine actor
brought to this country from Ger-
many, will be starred in "The Great
Accuser," by Metro-Goldwyn. Peter
is a huge German police dog. His
owners have been training him for
more than two years expressly for
work in pictures. This will be his
first appearance before the camera.

Rudolph Valentino is to dance
his famous tango in his new pic-
ture, "The Sainted Devil." He has
not used the dance since "The Four
Horsemen." Rudy will wear velvet
knee breeches and jacket trimmed
with silver braid. "Thrills!"

Joseph Lincoln's novel, "Dr. Nya,"
is to be screened by Thos. Fox, but
he has not confirmed his choice of
the east to us at present. The film-
ing of old musical comedy, "The Merry
Widow," is also scheduled for the
month. Van Stroheim is to direct
and Mae Murray is to play the title
role. Speaking of Van Stroheim, he
is still cutting and sub-titling his
picture, "Freed," from Frank Novis's
novel, "McFadden." It was sched-
uled for March release but is not out
yet.

ABIRPLANE SOW GRASS.
Miami, Fla.—One of the latest com-
mercial uses of the airplane, which
may possibly be perfected to revolu-
tionize certain phases of agriculture,
was demonstrated by Capt. W. C. Sweeney,
successfully demonstrated in the sub-
urban territory of Miami recently,
where 600 acres of land were sown to
carpet grass within a period of 20
minutes. Near the area sown during
the experiment, it was said, it would
require two men hand-seeds 30 days.

Though no general reduction in
the price of gasoline was noted Fri-
day, an indication of the downward
trend was given by a slight reduc-
tion on two grades of gasoline by the
Wadsworth Oil company operat-
ing two filling stations here and
repaving a large number of curb sta-
tions.

A 1.4 cent reduction on tank wa-
gon and filling station prices of the
medium grade of gasoline, 66-62
cents, the new prices being 20.1
and 22.4. Prices for high test, 68-70,
are tank wagon, 27 and filling
station 30, one cent less than form-
erly. The price of Wadsworth low
test, selling at the filling station
at 18, remains the same. This price
for low test is general throughout
the city, with the exception of one
station, which is allowing the tank
price of 16 cents for low test, at
the filling station.

Although the Standard Oil com-
pany in Milwaukee had announced a
reduction of 1.1 cents on the tank
wagon price of gasoline, no notice
to that effect had been received by
the local office Friday morning.
Dispatches from Milwaukee said that
it was assumed that the price at the
filling stations of the Standard also
will drop.

Commenting on the situation, one
prominent independent oil dealer
here said that while a price re-
duction in gasoline is expected, on
one can tell when it will come. He
admitted there has been a reduc-
tion in crude oil prices but said a
cut cannot be expected until gas
bought at previous prevailing prices,
is consumed.

FIRE DAMAGES DOUSMAN SCHOOL

Fire Thursday afternoon visited the
Wisconsin Home and Farm school, an
institution for boys near Dousman,
doing \$1,000 damage to the roof. The
origin was a defective chimney. It
was at first believed more serious
than it later developed and the Wis-
consin Masonic Home, through its
president, A. L. Matheson, of Janes-
ville, offered to care for as many boys
as were without shelter. The man-
agement of the benevolent institution
found shelter for the boys in other
buildings and a number are sheltered
in tents in which they have been
camping. A number of persons in
Janesville contribute to the support
of this school.

SEEK TO REOPEN OLD CHURCH SUIT

Introduction of New Evidence
Sought by Counsel for New
York Woman.

New York—An attempt to reopen the thirteen-year-old legal action, whereby Mrs. Augusta E. Stetson, formerly of First Church of Christ, Scientist, in this city, sought to prevent the church trustees from erecting a 17-foot wall between her West 50th street home and the edifice, was made in supreme court this week.

Walter Fairchild, counsel for Mrs. Stetson, requested Justice Burr to order reopened Mrs. Stetson's successful suit against the church that he might introduce in evidence a certificate of consent alleged to have been executed by the church in May, 1906, whereby it was guaranteed entrance to the property never would be blocked. Decision was reserved.

Missing Paper Found.
The certificate, missing at the time of the suit, which ended in Mrs. Stetson's favor, has just been found. Mr. Fairchild told the court. Reopening of the suit, he said, would establish an appeal from the decision, recently filed by the church, now is pending.

Mrs. Stetson, who contends she had been consensually to establish a church in New York by Mrs. Mary Baker G. Eddy, founded and built the church with the aid of her pupils at a cost of 1 1/2 million dollars.

Home Adjoins Church.
In 1909, six years after the church's completion, and after Mrs. Stetson had erected a palatial home

on adjoining property, she engaged in a doctrinal controversy with the board of directors of the Mother church in Boston and was dropped from membership.

Two years later, Mrs. Stetson charged the church proposed to build a seventeen-foot wall between her home and the church property. It was this proposal she successfully attacked in the suits, characterizing the proposed structure as a "spite wall."

As a recent automobile show in Geneva, Switzerland, 74 makes of cars were shown, and of these France had 22 and the United States 11.

OSHKOSH MAN AND GIRL HELD

Chicago—Russell Osborn, 24, Oshkosh, Wis., and a woman companion were taken into custody by the police today and held without charge.

Osborn's companion said she was 18 years old.

pending word from the Oshkosh police.

Agent John Noren, at the detective bureau where the couple was held, said Osborn, said to be a married man and the father of two children, faced the possibility of returning to the Wisconsin city to answer a charge of wife desertion, or being held for the federal authorities under the Mann act.

DANGER IN WAITING TO FILE CLAIMS

Case of Daniel McGrane Called to Attention of World War Vets.

Theodore Fish, chief county operator, of the United States Veterans' bureau, Madison, was in Janesville Thursday arranging for the hospitalization of Daniel McGrane of this city. Mr. McGrane, a world war veteran, served nearly two years with the 124th machine gun company in France, and was severely gassed and

has since contracted tuberculosis. The American Legion and Red Cross were helped in handling his case, and he was taken to the Soldiers Home hospital at Milwaukee Thursday morning.

The case is cited by Veterans' Bureau officials as an example of the dangers encountered by those injured in any way during the war in not filing claims with the government. Hospitalization, medical care and compensation may be arranged for as soon as advisable. The time limit for most men who saw service

in drawing to a close, and they are urging that all claims be made at once. Aid may be secured from Miss Hattie Alden, secretary of the Red Cross here, Harry Fox, service officer of the American Legion, or by writing to the Bureau at Madison.

Plans are being made, according to Mr. Fish, for a visit of a "clean-up" squad of the Veterans' Bureau in this city sometime next month, to

check up all cases that have not yet received attention. It will be composed of J. P. Burns, department service officer of the American Legion, Theodore Fish, chief county operator of the Madison bureau, and two officials of the district office of the Veterans' Bureau of Chicago.

COOLIDGE IN GOOD CONDITION, VERDICT

(BY ASSOCIATED PRESS)
Washington.—President Coolidge, after nearly a year in the White House, is physically fit. The president Thursday accompanied his father, John Coolidge, to Walter Reed hospital for the latter to undergo an examination. The president decided to be examined also, and the finding of the army doctors was that he is in "good physical shape." Examination of the elder Coolidge was arranged by the president, who felt that after years on the farm, away from close medical supervision, the former should know his exact condition. The father also is in good shape.

Cool Weather

Has No Effect on Band Crowd

Though rather cool Thursday night, the fourth weekly concert of the lower city band attracted nearly as many as at its previous appearances. One of the noticeable features of this year's concert is that the same number is not repeated during the entire season. Harry Shurtliff, cornetist, was the soloist of the evening, playing "The Safety Police," and an encore. Ice cream was sold by members of the Y. W. C. A. during and following the concert.

WARN AGAINST LONG USE OF PERMITS
Madison.—A warning against automobile owners operating on permits

obtained from local police for more than 10 days was issued today by Secretary of State Zimmerman.

Such action is an attempt to dodge the motor vehicle laws to get reduced license rates. Mr. Zimmerman said. Reports coming to the state department are that numerous vehicles are operating over the state on permits. After Sept. 1, the motor vehicle law provides that new vehicles or those that have not been driven this year will be licensed at half price. Mr. Zimmerman said apparently the owners are seeking this reduction.

Plan Parents' Night.—A parents' night entertainment with stunts and a program will be planned at the regular meeting of troop 10, Boy Scouts, at 7 p. m. Friday night at the high school. Action will be taken upon the two candidates on the waiting list.

"HAVE an opportunity on me," the classified section is saying.

Not on Any One Man

This is the silly season in politics. Promises
 are made which are absurd. "Elect this man and
 there will be prosperity; defeat that one and the
 country will go immediately to the dog kennel."

Everybody knows when a moment of rational
 thought is given to the subject that Mr. Davis
 could not individually bring prosperity or make a
 panic, nor could Mr. Coolidge. Nor again could
 Robert M. La Follette change the immutable laws.
 There are certain economic laws which are above
 all man-made legislation. Wheat is going up be-
 cause there is a shortage in the crop and Europe
 is in a better condition to buy than heretofore.
 Corn is going up because the crop is 500,000,000
 bushels short. It is not on account of the Cool-
 idge administration nor because there is a threat
 to make Davis president. Nor is it because La
 Follette is singing his favorite song, "Oh, Prom-
 ise Me." Nor is it because some one devised a
 scheme by which the farmers could be lifted over
 the fence by pulling on the bootstraps—the pull
 being called the McNary-Taughen bill. There will
 be little heard of that bill when wheat goes in a
 dollar and a half a bushel. But if it was a sound
 economic policy in the days when wheat was
 down in price, it ought to be sound when it is
 high. That is not the way it is looked at. Every-
 body knows the McNary-Taughen bill was a mis-
 ture of expediency.

We also know when the factories are all work-
 ing full time, there is prosperity. In order to
 have the factories working there must be a mar-
 ket. In order to have a market people must be
 able to buy. They cannot buy when they are idle
 or when there is no production. The only person
 who gets a margin in the hardest times is the
 pawnbroker and the shylockian note-shaver and
 he takes a risk and makes a gamble.

No man can get rich without others profiting.
 The stability of the nation and its prosperity de-
 pends not on any one man but on the whole peo-
 ple. We may want Coolidge because we believe in
 him and his rugged honesty. Others may want
 Davis because we believe his experience and am-
 bition will make him a good administrator. Others
 may want La Follette because they may think
 he has a hand of economical salvation which is
 as potent as the eye-water of Col. Mul-
 berry Sellers. But if anyone of the three should
 be elected the nation will undoubtedly go on as be-
 fore. We would have babies, children would go
 to school, mosquitoes would thrive at Koshkon-
 g, bandits would hold up automobiles and
 flappers would be as interesting as now. Corn and
 wheat would grow and be good or bad according
 to the weather and the activities of the pests.
 And the most worried man in the whole world
 outside the treasurer of the Russian Soviet, would
 be the president, in order to keep all the prom-
 ises made in platforms and personally shake
 hands with his admirers.

This is a nation made up of a collection of in-
 dividuals where every man stands as good as an-
 other, and as Mr. Dooley remarks, a "good deal
 better." No one man's personal destiny will make
 or break this nation. That is left to the old re-
 gime of kings and potentates. Most of them
 have gone to the hole of oblivion. So we do not
 place the burden on any person here, of making
 or breaking the nation. It is a good thing to re-
 member that in the heat of a presidential elec-
 tion.

You can have one guess as to where the next
 national conventions will not be held.

Need It Here

The sheriff of Walworth county is making a
 record for cleaning up the county. We have no
 such action here. It might be well for Mr. Riley
 to take a leaf from the sheriff's book over in
 Walworth when it comes to booze. We all know
 how sleepy the sheriff's office would be under Mr.
 Whipple. It is time the people of the county
 were fully awake on this important office and not
 again give it to the pair who think they are about
 to foreclose a mortgage on the jail.

Same Old Tammany

No matter how much perfume one spreads on
 an onion it will remain an onion. Tammany Hall
 remains the most corrupt and vicious political
 machine ever formed in the United States. It has
 made a gesture of decency by elevating a judge
 who unlike most of the Tammany chiefs, never
 kept a saloon or headed a ward gang. That will
 not change Tammany. It is still bossed by its
 old district chiefs who qualified both as ex-man-
 agers and saloon keepers or who had done nothing
 but play politics as a business all their lives. That
 Judge Olney, the new boss, will make no changes
 is indicated by what he said when he was se-
 lected. "I expect to follow out the same general
 policies as my predecessor." That policy was
 the ever-present method of Tammany to get the
 money and divide it. Before he became a judge
 he was a Tammany lawyer. He was attorney for
 the sheriff, an assistant to other attorneys and
 attorney for various boards and commissions, all
 political. Al Smith made him a judge because Mr.
 Murphy wished to reward his lieutenant with a
 good office. The first big job is to win the can-
 didacy.

NATIONAL BANK NOTES TO GO

By FREDERICK J. HASKIN.

Washington.—The national bank note, which
 ever since the Civil war has been an important
 part of the circulating currency of the United
 States, will disappear in about five years if present
 plans of the treasury are carried out. The na-
 tional bank currency was established upon the
 foundation of the national bank system during the
 Civil war and the notes of those banks have been
 as familiar to the American people during the
 intervening time as the gold certificates and
 greenbacks issued by the federal treasury.

The definite retirement of this currency is to
 be brought about by the redemption of the cir-
 culation bonds which secure them.

The United States had no very scientific or well
 regulated monetary system up to the time of the
 Civil war. The need of a better money and bank-
 ing system was strongly felt. Furthermore, when
 the Union became plunged in strife, the federal
 government was badly in need of money to pay
 the soldiers. It was important to find a market
 for the bonds of the treasury. After study by
 the wisest statesmen and financiers of the day a
 scheme was hit upon which answered both pur-
 poses.

The national bank act was passed providing for
 the establishment of national banks by any five
 citizens prepared to put up the \$50,000 capital
 required. These banks, under certain circum-
 stances, could issue their own bank notes.

It was recognized that the public would have
 to be convinced that solid security rested behind
 the new currency. The law provided that this
 security should be in the form of bonds of the
 federal government. Thus, before a national bank
 could issue circulating notes, it was required
 to buy an equivalent amount of government
 bonds and keep them as security for the circulat-
 ing notes. It will be observed that this system
 furnished a market for government securities and
 also added to the circulating currency. The sys-
 tem worked so well that it has been used up to
 the present and there is difference of opinion now
 as to the wisdom of doing away with the national
 bank note as a medium of exchange.

The manner in which the treasury can displace
 the national bank notes is simple. Only certain
 government bonds bear what is known as the cir-
 culation privilege which means that they can be
 used to secure national bank notes. Liberty bonds,
 Victory notes and various other government is-
 sues do not bear the circulation privilege. There-
 fore, by retiring those bonds which do have the
 privilege, the national bank notes automatically
 disappear because there is no way left to issue
 them. Of course, as soon as an amount of nation-
 al bank notes must be retired.

There are at present \$735,000,000 in national
 bank notes outstanding. Most of these are se-
 cured by an issue of bonds maturing in 1929, five
 and a half years from now. These are called the
 1929 bonds. There are also \$500,000,000 out-
 standing. Circulation bonds bear a very low
 rate of interest—only 2 per cent. An issue of
 \$115,000,000 in circulation bonds comes due next
 February. In ordinary course these would be re-
 funded by new bonds bearing the circulation privi-
 lege but the treasury has announced that this
 will not be done.

The other principal issues of circulation bonds
 outstanding are the Panama canal 2 per cent
 bonds of 1916-24 and the Panama canal 2 per cent
 bonds of 1914-28. These figures mean that the bonds
 may be called and redeemed at the option of the
 government, in the case any time subsequent to
 1916 and in the other any time subsequent to
 1914. They mature and must be redeemed in
 1929 and 1928 respectively. Therefore, it will be
 seen that the government any time now can call
 in these bonds and retire them. There are \$49,-
 000,000 of the former issue and \$26,000,000 of the
 latter.

It is the expectation of the treasury that the
 national bank notes will be supplanted in cir-
 culation by federal reserve notes. These are the
 new class of notes which came into being with
 the enactment of the federal reserve act in 1913.
 They are issued in an entirely different manner.
 The security for them is 40 per cent gold as a
 minimum and above that, commodities. When a
 business man, producer, manufacturer or dealer
 borrows money from a bank, he gives wheat,
 shoes, coal, or some valuable commodity as secu-
 rity, or he may give government bonds.

When the bank he borrows from redeems
 his note with a federal reserve bank, the latter
 issues federal reserve notes. The federal reserve
 bank must keep \$40 in gold in its vaults for each
 \$100 of notes it issues. The virtue of this cur-
 rency is in its elasticity. When the demands of
 business are heavy, many loans are made, bring-
 ing notes into circulation. As the loans are paid
 off, the volume of notes automatically contracts,
 for they must be called in the exact proportion in
 which loans are reduced.

The theory of the treasury is that the elasticity
 of this system will make it possible for enough
 federal reserve notes to be issued to take the
 place of the national bank notes retired.

Students of the situation see one possible hitch
 in this line of reasoning. The capacity of federal
 reserve banks to issue currency is limited by the
 size of the federal reserve system. Now, many
 national banks are either reserve as members of
 the system and scores have gone so far as to sur-
 render their federal charters and take out state
 charters, leaving the federal reserve system.
 State banks have greater privileges in the matter
 of branches and in some other respects.

It is claimed by some observers that the na-
 tional banks would feel that they were being still
 further discriminated against should their note-
 issuing privilege—about the only distinctive func-
 tion they have left—be taken away from them.
 They might relinquish their charters and leave the
 system in great numbers.

This, of course, would reduce the membership
 of the system and thereby automatically reduce
 the note-issuing capacity of federal reserve banks
 because the latter have only such reserves as are
 contributed to them by member banks.

The result would be if there were any great
 exodus that the note-issuing capacity would be
 lessened. In addition, the national bank notes
 could be withdrawn from circulation. The loss
 in circulating currency would be the \$735,000,000
 of national bank notes plus the loss of capacity
 to issue federal reserve notes resulting from con-
 traction of the federal reserve system's member-
 ship.

It is by no means certain that the system would
 be contracted by loss of membership. This an-
 nouncement of the policy of retiring the national
 bank notes was made recently and there has not
 yet been time for the national banks to make
 up their minds as to what they will do. If it
 does develop that there would be a wholesale ex-
 odus from the system as the result of the depri-
 vation of the note-issuing function, it is more than
 likely that new legislation will be enacted to solve
 the problem.

JUST FOLKS

By EDGAR A. GUEST.

THE FIRST WATCH
 If I were asked one thing to make
 Richer in pleasure's golden thrill
 Which I had been my lot to be
 One treasure which surpassed all
 The many which have made me glad—
 The greatest source of pride and joy
 Would be that first real watch I had
 When I was but a little boy.

I found it at my breakfast plate
 One birthday morning years ago,
 Nor have I language now to state
 The gladness of that startled Oh!
 A watch! A real watch for a boy!
 Such pleasure never comes again,
 But once in life a boy can be
 So happy with a watch and chain.

The pride I felt I could not mock,
 Its feeling was a round of life.
 I hoped that fiddlers by would ask
 If I could tell to them the time.
 A hundred times a day, compelled
 By happy fears my play I dropped
 And to my ears that watch I held
 To be convinced it hadn't stopped.

It seemed to me the world must know
 That I possessed a time piece true;
 I had a treasure I must show
 And ardently I did it too.
 I'd show it to the thousand looks of joy
 If still those hands were moving round
 And wondered if men noticed me
 Or heard that gentle ticking sound.

Now to that first watch here I sing
 This little feeble hymn of praise,
 And all my gratitude I bring
 For radiant joy of by-gone days.
 And whosoever there dwells a boy,
 He too, shall know what I have known,
 And reach the dawn of his own day
 In that first watch he soon shall own.

HOROSCOPE

SATURDAY, JULY 19, 1924.

Planetary influences today are unfavorable,
 according to astrology. Mars, Jupiter, Saturn
 and the Sun are all in malefic aspect.
 During this planetary government it will be
 wise to avoid business as much as possible.
 The day is full of foreboding omens. Any sort
 of constructive work and may bring a sense of dis-
 composure, or fatality.
 Engineers, contractors and all who work
 through the medium of stone, iron and concrete
 should be especially cautious in making contracts
 at this time.
 Mars is in a place that certainly indicates
 much thought about military matters and much
 effort on the part of army officers to focus at-
 tention on war possibilities.
 Men who have held positions of authority are
 subject during this time to suspicion and loss
 of popularity.
 Abuse and criticism will be aimed at men and
 women who are prominent and scandals will be
 whispered by those who have ignoble purposes
 in political matters.
 Alms may be the scenes of accidents of grave
 importance and there is likely to be peril in tun-
 nels or excavations.
 All who seek employment will do well to post-
 pone initiative until friendlier stars rule.
 Loss of money, due to a lack of a definite plan
 is forecast and great self interest will be evi-
 dent among women as well as men.
 Labor will be subject to discontent and un-
 rest during the next few weeks in which there
 will be strikes and lockouts.
 Persons whose birthdate it is should be very
 careful to conserve money and to conduct busi-
 ness on conservative lines during the coming
 year. The young will court and marry.
 Children born on this day may be rash, im-
 pulsive and difficult to direct, but these subjects
 of "cancer" usually have big possibilities. They
 probably will have artistic talent and will be
 exceedingly fond of luxuries.

HISTORY OF TODAY

TODAY'S EVENTS.
 Italy today commemorates the 55th anniversary
 of the death of her great poet, Petrarch.
 The anniversary of the death of Benito Juarez,
 Mexican patriot, observed in the southern republic
 today.
 After a long and brilliant career in the U. S. army,
 Maj. Gen. Charles H. Dyer, died today.
 Plans for a world-wide campaign for prohibi-
 tion to be drawn at a three-day conference of the
 World League Against Alcoholism, opened today
 at Whooa Lake, Ind.

WHAT'S ANNOYING.
 1274.—Petrarch, the famous Italian poet, died near
 Padua, born July 29, 1304.
 1775.—Port Johnson, on the Cape Fear river, was
 destroyed by a party of American militiamen
 under Col. Arch.
 1811.—William McKim, architect, famous
 English architect, born at Calcutta, India.
 Died in London, Dec. 23, 1882.
 1860.—The Indian fleet began an attack on the
 island of Luzon, belonging to the Austrian
 province of Balabac.

1872.—Benito Juarez, Mexican president and pa-
 triot, died in the City of Mexico, born
 March 21, 1806.
 1891.—Maj. Scott affirmed a decision excluding
 Roman Catholics from membership in any
 Catholic society.
 1892.—Horatio Alger, Jr., writer of popular books
 for boys, died in New York, born at
 Chelsea, Mass., Jan. 12, 1831.
 1921.—The McMillan expedition sailed from Booth-
 bay, Maine, for the Arctic.

ONE YEAR AGO TODAY.
 President Harding and party returned to Se-
 ward, Alaska, preparatory to beginning the home-
 land tour.

TODAY'S BIRTHDAYS.
 Prince Victor Napoleon, Comptroller pretender
 to the throne of Greece, born today.
 Maj. Gen. Charles H. Dyer, U. S. A., who has
 reached the age for statutory retirement, born at
 Erie, Mich., 44 years ago today.

LOOKING BACKWARD

FORTY YEARS AGO.
 July 18, 1884.—Several immense swarms of
 cicada flies appeared in this city between eight
 and nine o'clock last night, and the sidewalks
 near the gas lamps were covered with dead flies.
 Several business houses were compelled
 to close their doors and extinguish the lights to
 get rid of the pests.

THIRTY YEARS AGO.
 July 18, 1894.—Though all preliminary plans
 have been made and an architect engaged for
 the new high school building here, work has
 stopped, through the refusal of a Chicago bank
 to buy the school bonds issued, as it had pre-
 viously agreed. The council lacked authority to
 issue them, it is contended.

TWENTY YEARS AGO.
 July 18, 1904.—Formation of a military com-
 pany was begun here, from a meeting held last
 Wednesday night. C. C. Lindgren, late of the
 26th infantry, is the prime mover in the affair
 and with him are several former regular army
 men.—James P. Riley is attending the national
 convention of the A. O. U. at St. Louis.

TEN YEARS AGO.
 July 18, 1914.—Several bottles of beer and a
 small amount of money was the lot of a thief
 who broke into the office of the Badger Brew-
 ing company last night.—Bids for the addition
 to the Douglas school were received at the meet-
 ing of the board of education last night. They
 were somewhat higher than expected.

FOR GOD SO LOVED THE WORLD
 that he gave his only begotten Son,
 that whosoever believeth in him
 should not perish, but have ever-
 lasting life.—John 3:16.

Personal Health Service

By WILLIAM BRADY, M. D.

Noted Physician and Author.

THE CAUSE OF THE TEETH
 Eight of every 10 pupils in the
 schools of America, it was found to
 have cavities in their teeth, anywhere
 from one to 17 cavities. One in every
 five pupils had root or gum abscesses
 in their mouths. The teeth of every
 child in every six of the pupils had
 cavities. More than half of them
 had "fairly clean teeth" more
 than one-fourth of them had per-
 fectly clean teeth.

That is a fair average condition of
 the teeth of children and youths, I
 should say.

Now let us see how come.
 School life, published by the bu-
 reau of education at Washington,
 gives the data I am quoting. Of all
 the pupils whose teeth were exam-
 ined, 47.9 per cent used a toothbrush
 irregularly, 41.6 per cent used the
 brush daily, and 7.5 per cent used no
 brush.

Does it pay to use a toothbrush at
 all? Will it all the while be con-
 sulting myself on that? I neither
 affirm nor deny, I merely inquire.
 What do you think?

The survey does not inform us
 whether the 7.5 per cent of pupils
 who used no toothbrush had the best
 teeth of the lot, but I should like to
 have an opportunity to make a good
 wager with some one who believes in
 brushing the teeth on a question like
 this.

Until we get away from our present
 custom of regarding children to
 ultra-refined and dandrified food the
 more or less regular daily use of the
 toothbrush will probably remain a
 question of mouth hygiene. I there-
 fore advise that every child be taught
 to make use of the tooth brush daily
 as part of the toilet, from the earliest
 possible time after the setting of the
 first teeth to the time of the eruption
 of such of the third molars (wisdom
 teeth) as the individual is to have.

About half of us go through life with
 about half of our wisdom teeth at
 present. We don't need 'em to mas-
 terate pap.

I'm a little regretful now of all the
 good time I've wasted in my wisdom
 teeth. In the first place it didn't get
 me anything in the way of better
 teeth. In the next place, it might
 have saved me a lot of trouble with it,
 but I don't know.

Once a month or two, even yet, I
 get a dirty feeling and go and brush
 my teeth to ease my conscience.

Q. Dry-cupping? Th. W. A.
 A. Dry-cupping is performed by
 taking a tumbler, dropping into it a
 piece of something that is burning,
 and clamping the tumbler on to the
 skin of the back or other part of the
 body. Burning the body is avoided
 by clapping the tumbler on upwards
 instead of downwards. The air inside
 the tumbler is largely exhausted by
 the heat and the air pressure reduced.
 The atmospheric pressure on the body
 outside the rim of the tumbler re-
 mains constant. The result is as if
 the tumbler had been applied to that
 flesh covered by the tumbler.

RASPBERRIES ARE MARKET FEATURE

Both Blacks and Reds Are on Sale; Currants Also Are Abundant.

With the practical disappearance of strawberries during the last few days, raspberries are the feature of this week-end, according to local merchants, who are sending out crates of them every day. Blacks are 15 to 18 cents quart, and reds, 25 cents. Among the other home-grown fruits which are abundant this week are currants, now at the height of excellence for jelly making. It is said, at 15 cents quart. They are somewhat scarce this week, and no reduction is given on a 16 quart case. Home grown cherries, now beginning to disappear, bring \$1.60 per case.

Georgia peaches of excellent quality, are selling rapidly at 20 cents dozen. They are primarily an eating variety, and while suited to canning are too high in price. Red plums at 25 to 30 cents dozen, and blue plums at 15 to 20 cents are

among the California fruits this week.

Grapes and Pears.
Malaga grapes, California pears at 50 cents; black cherries, 45 cents pound; and the usual year-around fruits—bananas, oranges, grapefruit and lemons, which sell at steady prices—complete the fruit displays.

Florida pineapples, though scarce for almost a month past, continue to come, and are as cheap and of as good a quality as during the height of their season, at 20 to 25 cents each. Watermelons are 40 to 60 cents, and muskmelons, 3 for a quart, at 15 cents each. Tomatoes have showed only slight declines during the last six weeks, and probably will not until home-grown ones are on the market. They are now 25 to 30 cents pound.

Home grown string beans, at 17 cents; peas, at 3 pounds for a quart, at 10 cents pound; 3 for a quart, at 3 bunches for 15 cents, and radishes and onions, at 5 cents bunch, include most of the popular green vegetables this week. Planting cauliflower, cabbage, turnips, asparagus and lettuce are also selling well.

Potatoes Are Cheap.
Potatoes, both shipped-in and home grown, are cheaper this year than for many seasons back. The shipped-in kind are 40 to 45 cents bushel, and the home-grown, 45 to 50 cents. Though scarce as yet, the native potatoes are of the best quality in years, merchants state, and a large crop and consequent low prices are anticipated.

The canning season up to the present time, on pineapples, strawberries and cherries, has been as heavy as any year recently, but sugar prices have not advanced to any extent. It may be had anywhere for 8 cents, and some stores are making a special price of 7 1/2 cents on 10 pound lots.

Butter remains steady at 35 to 40 cents. Fresh eggs are hard to obtain from the farmers, dealers say, and have gone up a few cents, to 25 or 26 cents dozen.
